

HEALTH CARE AND EMERGENCIES

The Board of Trustees recognizes the importance of taking appropriate action whenever an emergency threatens the safety, health, or welfare of a student at school or during school-sponsored activities.

- (cf. [0450](#) - Comprehensive Safety Plan)*
- (cf. [3516](#) - Emergencies and Disaster Preparedness Plan)*
- (cf. [5141.21](#) - Administering Medication and Monitoring Health Conditions)*
- (cf. [5141.22](#) - Infectious Diseases)*
- (cf. [5142](#) - Safety)*

The Superintendent or designee shall develop procedures to ensure that first aid and/or medical attention is provided as quickly as possible when accidents and injuries to students occur and that parents/guardians are notified as appropriate.

- (cf. [3530](#) - Risk Management/Insurance)*
- (cf. [5143](#) - Insurance)*
- (cf. [6145.2](#) - Athletic Competition)*

The Superintendent or designee shall ask parents/guardians to provide emergency contact information in order to facilitate communication in the event of an accident or illness. District staff shall appropriately report and document student accidents.

"Do Not Resuscitate" Orders

The Board believes that staff members should not be placed in the position of determining whether or not to follow any parental or medical "do not resuscitate" orders. Staff shall not accept or follow any such orders except under the specific written direction of the Superintendent or designee. The Superintendent or designee may only direct a staff member to follow a "do not resuscitate" order if he/she has received a written parent/guardian authorization, with an authorized health care provider statement, and an order of an appropriate court.

The Superintendent or designee shall ensure that parents/guardians who have submitted a "do not resuscitate" order are informed of this policy.

Automated External Defibrillators

The Board authorizes the Superintendent or designee to place automated external defibrillators (AEDs) at designated school sites for use by school employees in an emergency.

The Superintendent or designee shall develop guidelines for employees regarding these devices and shall ensure that employees receive information that describes sudden cardiac arrest, the school's emergency response plan, and the proper use of an AED. The guidelines shall also specify the placement, security, and maintenance of the AED.

HEALTH CARE AND EMERGENCIES (continued)

The authorization of AEDs in district schools shall not be deemed to create a guarantee that an AED will be present or will be used in the case of an emergency, or that a trained employee will be present and/or able to use an AED in an emergency, or that the AED will operate properly.

(cf. 5113 - Absences and Excuses)
(cf. 5113.1 - Chronic Absence and Truancy)

Any medication prescribed for a student with a disability who is qualified to receive services under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973 shall be administered in accordance with the student's individualized education program or Section 504 services plan, as applicable.

A school nurse, other qualified supervisor of health, or, if the district does not have a qualified supervisor of health, a district administrator shall obtain a prescription for naloxone hydrochloride or another opioid antagonist for each school from an authorized physician and surgeon. Such prescription may be filled by local or mail order pharmacies or manufacturers. (Education Code 49414.3)

If the medication is used, the school nurse, other qualified supervisor of health, or district administrator, as applicable, shall restock the medication as soon as reasonably possible, but no later than two weeks after it is used. In addition, the medication shall be restocked before its expiration date. (Education Code 49414.3)

INFECTIOUS DISEASES

The Board of Trustees desires to protect students from risks posed by exposure to infectious diseases while providing an appropriate education for all students. The Board recognizes that prevention and education are the most effective means of limiting the spread of infectious diseases.

Infectious Disease Prevention

The Superintendent or designee shall collaborate with parents/guardians and local health agencies and organizations to develop a comprehensive approach to disease prevention that promotes preventative measures and education of students and staff.

- (cf. 1020 - Youth Services)*
- (cf. 3516 - Emergencies and Disaster Preparedness Plan)*
- (cf. 5141.21 - Administering Medication and Monitoring Health Conditions)*
- (cf. 5141.26 - Tuberculosis Testing)*
- (cf. 5141.3 - Health Examinations)*
- (cf. 5141.31 - Immunizations)*
- (cf. 5141.32 - Health Screening for School Entry)*
- (cf. 5141.6 - School Health Services)*

The Superintendent or designee shall regularly review resources available from health experts to ensure that district programs are based on the most up-to-date information.

The Superintendent or designee shall ensure that the district's comprehensive health education program provides information about the prevention of infectious diseases, including the nature of bloodborne pathogens and their transmission, as well as information to help prevent the spread of contagious diseases, such as a pandemic influenza. He/she shall also ensure that each school has sufficient infection prevention supplies that are easily accessible to staff.

- (cf. 6142.1 - Sexual Health and HIV/AIDS Prevention Instruction)*
- (cf. 6142.8 - Comprehensive Health Education)*

Universal Precautions

Students and staff shall observe universal precautions in order to prevent exposure to bloodborne pathogens and to prevent the spread of infectious diseases.

- (cf. 4119.42/4219.42/4319.42 - Exposure Control Plan for Bloodborne Pathogens)*
- (cf. 4119.43/4219.43/4319.43 - Universal Precautions)*

The Superintendent or designee shall inform students of the precautions to be used in cases of exposure to blood or other body fluids through injury, accident, or classroom instruction.

- (cf. 5141 - Health Care and Emergencies)*
- (cf. 6145.2 - Athletic Competition)*

INFECTIOUS DISEASES (continued)

Students with Infectious Diseases

The Superintendent or designee shall exclude students only in accordance with law, Board policy, and administrative regulation. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus, and human immunodeficiency virus (HIV) are not casually transmitted, the presence of infectious conditions of this type is not, by itself, sufficient reason to exclude students from attending school.

(cf. 5112.2 - Exclusions from Attendance)

(cf. 6164.6 - Identification and Education Under Section 504)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law.

The request also shall encourage parents/guardians to provide such notification at any time during the school year that their child is so diagnosed.

The Superintendent or designee shall keep a student's medical information in a secure location and maintain the confidentiality of student health records in accordance with law governing student records. A copy of a student's health record shall be provided to the school nurse, if any. In addition, pertinent information from the health record shall be released to other employees whose responsibilities require that they have access to such information in order to provide support services or to respond in an emergency, such as a student's teacher(s), coach(es), bus driver, and any other staff with responsibility for direct supervision of the student.

The Superintendent or designee shall request that the parents/guardians submit an updated plan each school year or whenever there are changes in the student's health condition or treatment.

When a student with asthma has been identified as disabled pursuant to Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act, necessary accommodations and services shall be identified as part of the student's Section 504 services plan or individualized education program (IEP), as appropriate.

Staff shall contact the student's parent/guardian or other person identified as an emergency contact and shall supervise the student until his/her care has been assumed by a health professional, parent/guardian, or designated emergency contact.

(cf. 5141 - Health Care and Emergencies)

(cf. 5142 - Safety)

Education and Support Services

Asthma management and support systems shall be coordinated by a school nurse, other qualified health professional, or educator who has received appropriate training.

- b. A student who has not submitted the certificate may be conditionally admitted provided that he/she receives an approved tuberculin skin test within 10 school days after admission. A student who had a positive skin test and has not subsequently obtained a chest x-ray may be conditionally admitted if he/she receives a chest x-ray within 20 school days after admission. Any student who fails to provide the certificate within those time periods shall be prohibited from further attendance until he/she provides the certificate. (Health and Safety Code 121495; 22 CCR 41315, 41327)

TUBERCULOSIS TESTING (continued)

- c. Whenever the local health officer so orders, a student may be required to complete an additional examination and provide another certificate indicating that he/she is free of communicable tuberculosis. (Health and Safety Code 121485)
 - d. At the discretion of the local health officer, the district may admit a student without a certificate if he/she is undergoing or has already undergone preventive treatment for tuberculosis infection or treatment for tuberculosis disease. (22 CCR 41319)
3. Whenever the Superintendent or designee suspects that a student who has not been examined for tuberculosis either has the disease or has been exposed, he/she shall immediately report by telephone to the local health officer. When required by the local health officer, the district shall exclude the student from school until he/she is certified to be free of communicable tuberculosis. (22 CCR 41329)

The Superintendent or designee shall maintain a record of any student's tuberculosis examination as part of the student's mandatory permanent student record. (22 CCR 41323)

(cf. 5125 - Student Records)

The Superintendent or designee shall annually file a report with the local health department on the results of tuberculosis examinations for all individuals required to complete such examinations in accordance with item #2 above, including, but not necessarily limited to, the number of individuals unconditionally and conditionally admitted and the number of individuals exempted on the basis of their personal beliefs. The Board of Trustees desires to prevent exposure of students to foods to which they are allergic and to provide for prompt and appropriate treatment in the event that a severe allergic reaction occurs at school.

The Superintendent or designee shall develop guidelines for the care of food-allergic students. Such guidelines shall include, but not be limited to, strategies for identifying students at risk for allergic reactions, avoidance measures and other means to manage allergies, education of staff regarding typical symptoms, and actions to be taken in the event of a severe allergic reaction.

When a student's food allergy or food intolerance substantially limits one or more major life activities, his/her parents/guardians shall be informed of the district's obligation to evaluate the student to determine if he/she requires accommodations pursuant to Section 504 of the federal Rehabilitation Act. The student shall be evaluated in accordance with law and the procedures specified in AR 6164.6 - Identification and Education Under Section 504. If that process results in the development of a Section 504 plan, the district shall provide the accommodations and/or aids and services identified in the plan.

- (cf. 6145 - Extracurricular and Cocurricular Activities)*
- (cf. 6164.6 - Identification and Education Under Section 504)*

If a student's diet restrictions and needed services are addressed in an individualized education program (IEP), the Superintendent or designee shall ensure compliance with the IEP including any necessary food substitutions.

- (cf. 6159 - Individualized Education Program)*

Students shall not be excluded from school activities based solely on their food allergy.

- (cf. 0410 - Nondiscrimination in District Programs and Activities)*

FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

Any complaint of alleged noncompliance with this policy shall be addressed through appropriate district complaint procedures.

(cf. 1312.3 - Uniform Complaint Procedures)

(cf. 3555 - Nutrition Program Compliance)

The district's food services program may, but is not required to, accommodate individual student preferences or diets that are not supported by a statement from the student's health care provider.

FOOD ALLERGIES/SPECIAL DIETARY NEEDS

Definitions

Special dietary needs include food intolerances, allergies, and other medical needs that may require avoidance of specific foods.

Food allergies are abnormal responses of the body's immune system to certain foods or ingredients.

Anaphylaxis is a potentially life-threatening hypersensitivity to a substance and may be caused by a food allergy. Symptoms may include shortness of breath, wheezing, difficulty breathing, difficulty talking or swallowing, hives, itching, swelling, shock, or asthma. (Education Code 49414)

In severe cases, anaphylaxis may result in lowered blood pressure, loss of consciousness, or even death. Symptoms typically appear immediately after exposure to a certain food or substance but in rare cases may occur after a few hours.

Epinephrine auto-injector is a disposable drug delivery system with a spring-activated needle that is designed for emergency administration of epinephrine to provide rapid, convenient first aid for persons suffering a potentially fatal reaction to anaphylaxis. (Education Code 49414)

Notification by Parent/Guardian

The parents/guardians of any student who has a known food allergy or other special dietary need shall notify the Superintendent or designee, in writing, and provide written medical documentation, signed by the student's health care provider, that describes the nature of the student's condition, instructions, and necessary medications. If the student's condition requires food substitutions or modifications in school meals, the written statement shall also describe the specific foods to be restricted and the foods that should be substituted.

Health Plan

Upon receiving notice of a student's food allergy or other special dietary need, the Superintendent or designee shall ensure that a written health plan is developed, in consultation with the student's parents/guardians and health provider, to manage the student's needs while at school or at a school-sponsored activity. The plan shall seek to minimize the student's risk of exposure to the allergen and address actions to be taken if exposure occurs.

As appropriate, the plan may include specific food prohibitions and substitutions, an identification of common school rooms where the student may be exposed, staff responsibilities, information and training to be provided to staff, accommodations and services to facilitate the student's participation in the educational program, and medical/emergency protocols.

FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

When a student with a food allergy or other special dietary need has been identified as disabled pursuant to Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act, necessary accommodations and services shall be identified as part of the student's Section 504 services plan or individualized education program, as appropriate.

(cf. 5141.24 - Specialized Health Care Services)

(cf. 6159 - Individualized Education Program)

(cf. 6164.6 - Identification and Education Under Section 504)

Prevention Strategies

To minimize students' exposure to foods to which they are allergic, the Superintendent or designee shall, at a minimum, implement the following preventive measures:

1. Notification to District Staff

When notified by the parent/guardian that a student has a food allergy, the Superintendent or designee shall inform the student's principal, teacher(s), bus driver, school nurse, coach, substitute teacher, and/or any other personnel responsible for supervising the student.

The principal or designee shall notify substitute staff of any students with known food allergies and the school's response plan.

(cf. 5125 - Student Records)

2. Food Services

The district's food services program shall make food substitutions in breakfasts, lunches, and after-school snacks when students are considered to have a disability under Section 504 of the federal Rehabilitation Act of 1973 that restricts their diet and when a physician has signed a statement of need that includes recommended alternate foods. (7 CFR 210.10, 220.8)

(cf. 3550 - Food Service/Child Nutrition Program)

(cf. 3552 - Summer Meal Program)

(cf. 3554 - Other Food Sales)

(cf. 5030 - Student Wellness)

(cf. 5148.2 - Before/After School Programs)

Substitutions may be made on a case-by-case basis for students who do not have a disability under Section 504 but who cannot consume the regular breakfast, lunch, or after-school snack because of medical or other special dietary needs, when supported by a statement of need signed by a recognized medical authority. (7 CFR 210.10, 220.8, 225.16)

FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

The district's food services staff shall check food labels or specifications to ensure that foods do not contain traces of substances to which the student is allergic.

Under no circumstances shall food services staff prescribe nutritional requirements or revise a diet order prescribed by a physician.

Food substitutions shall not result in any additional cost to the student.

3. Class Parties/School Activities

Without identifying the student, the principal or teacher may notify parents/guardians of other students in the class that a student is allergic to a specific food and may request that the food not be provided at class parties or other school events.

Whenever the ingredients in any food served at class parties or other school activities are unknown, the student shall be encouraged to avoid the food.

4. Sanitation and Cleaning

To avoid spreading allergens, cafeteria tables and classroom surfaces shall be cleaned with a fresh cloth or disposable paper towels and cleaning products known to effectively remove food proteins, excluding waterless cleaners or instant hand sanitizers that do not involve a wet-wash step. Cross-contact from a sponge or cloth used to clean allergen-containing tabletops shall be avoided.

Staff shall use and promote hand-washing using soap and water before and after food handling.

Students shall be notified that exchanging meals or utensils is prohibited.

5. Professional Development

Schoolwide professional development shall be provided to appropriate staff on the identification and management of food allergies, including avoidance measures, typical symptoms, the proper use of epinephrine auto-injectors, documentation and storage of medication, and emergency drills.

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

6. Supervision of Students

When available, staff who are trained and knowledgeable about symptoms of anaphylaxis and actions to take in an emergency shall provide supervision in the

FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

classroom and cafeteria, on the playground, and on field trips or other school activities whenever students known to have a food allergy are present.

(cf. 6153 - School-Sponsored Trips)

7. Health Education

The district's health education curriculum may include instruction on food allergies in order to assist food-allergic students in taking responsibility for monitoring their diet and to teach other students about the dangers of sharing foods or utensils with others.

(cf. 6142.8 - Comprehensive Health Education)

Emergency Response

Epinephrine auto-injectors or other medicine provided for use in the event of an anaphylactic shock reaction shall be stored and used in accordance with law and BP/AR 5141.21 - Administering Medication and Monitoring Health Conditions.

(cf. 4119.43 - Universal Precautions)

(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

In addition, staff shall call 911 and seek immediate medical attention for a student experiencing an anaphylactic shock reaction.

(cf. 5141 - Health Care and Emergencies)

As soon as possible, school staff shall contact the student's parents/guardians or other person identified as an emergency contact.

When a student with a known allergy will be off school grounds, such as on a field trip, he/she shall be accompanied by a kit containing at least two doses of epinephrine, other medications as noted by the student's health care provider, and, as appropriate, the student's individualized food allergy plan.

HEALTH EXAMINATIONS

The Board of Trustees recognizes that periodic health examinations of students may lead to early detection and treatment of conditions that impact learning. Health examinations also may help in determining whether special adaptations of the school program are necessary.

The Superintendent or designee shall verify that students have complied with legal requirements for a comprehensive health screening, an oral health assessment, and immunizations at school entry. In addition, the district shall administer tests for vision, hearing, and scoliosis as required by law.

(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.31 - Immunizations)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5141.6 - School Health Services)

All students who participate as cheerleaders, song leaders, or athletes in organized competitive sports shall first undergo a medical examination and submit documentation of medical clearance to the district. Upon sustaining an injury or serious illness, a student may be required to have another examination before participating further. This requirement does not apply to participants in occasional play day or field day activities.

(cf. 5143 - Insurance)
(cf. 6145.2 - Athletic Competition)

The Superintendent or designee shall ensure that staff employed to examine students exercise proper care of each student and that examination results are kept confidential. Records related to these examinations shall be maintained and released only in accordance with law.

HEALTH EXAMINATIONS

The principal at each school shall notify parents/guardians of the rights of students and parents/guardians related to health examinations. (Education Code 48980; 20 USC 1232h)

(cf. 5022 - Student and Family Privacy Rights)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5141.6 - School Health Services)
(cf. 5145.6 - Parental Notifications)

A parent/guardian may annually file with the principal a written statement withholding consent to the physical examination of his/her child. (Education Code 49451; 20 USC 1232h)

(cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.22 - Infectious Diseases)
(cf. 5141.26 - Tuberculosis Testing)

Vision Tests

Each student's vision shall be appraised, by the school nurse or other personnel authorized under Education Code 49452, during the kindergarten year or upon first enrollment or entry in a district elementary school and subsequently in grades 2, 5, and 8. However, a student who is tested upon first enrollment or entry in the district in grade 4 or 7 shall not be required to be appraised in the next immediate year. (Education Code 49455)

The vision appraisal shall include tests for visual acuity, including near vision. Male students shall also be tested once for color vision in grade 1 or later and the results of the appraisal shall be entered in the student's health record. (Education Code 49455)

(cf. 5125 - Student Records)

Appraisal of a student's vision may be waived under either of the following conditions: (Education Code 49455)

1. The student's parent/guardian requests a waiver and presents a certificate from a physician/surgeon, physician assistant, or optometrist showing the results of an examination of the student's vision, including visual acuity and, in male students, color vision.
2. The student's parents/guardians file with the principal a written statement that they adhere to the faith or teachings of any well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles depend for healing upon prayer in the practice of their religion.

HEALTH EXAMINATIONS (continued)

Visual defects or any other defects found as a result of the vision examination shall be reported to the parent/guardian with a request that remedial action be taken to correct or cure the defect. The report of a visual defect, if made in writing, shall be made on a form prescribed by the Superintendent of Public Instruction. The report shall not include a referral to any private practitioner. However, the student may be referred to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health. (Education Code 49456)

In addition to the vision appraisals described above, the school nurse and/or classroom teacher shall continually and regularly observe students' eyes, appearance, behavior, visual performance, and perception that may indicate vision difficulties. (Education Code 49455)

Hearing Tests

The Superintendent or designee shall provide for the administration of hearing tests to district students by personnel authorized to conduct such testing pursuant to Education Code 49452 and 49454 and in accordance with the procedures specified in 17 CCR 2951.

Each student shall be given a hearing screening test at the following times: (17 CCR 2951)

1. Kindergarten or grade 1
2. Grade 2
3. Grade 5
4. Grade 8
5. Grade 10 or 11
6. Upon first entry into the California public school system

Each student enrolled in a special education program, other than those enrolled because of a hearing problem, shall be given a hearing test when enrolled in the program and every third year thereafter. Hearing tests may be given more frequently as needed, based on the individualized education program team's evaluation of the student. (17 CCR 2951)

(cf. 6159 - Individualized Education Program)

A follow-up hearing threshold test shall be administered to any student who fails to respond to any of the required frequencies in the screening test or is otherwise determined to need further evaluation. (17 CCR 2951)

HEALTH EXAMINATIONS (continued)

The Superintendent or designee shall provide written notification of test results to the parents/guardians of any student who fails the hearing tests. When the test results fall within the levels specified in 17 CCR 2951 or there is evidence of pathology, such as an infection of the outer ear, chronic drainage, or a chronic earache, the notification shall include a recommendation that a further medical and audiological evaluation be obtained. (17 CCR 2951)

The dates and results of all screening tests and copies of threshold tests shall be included in the student's health records. (17 CCR 2951)

The principal or designee shall prepare an annual report of the school hearing testing program, using forms provided by the Department of Health Services, with copies to the Superintendent and the County Superintendent of Schools. (17 CCR 2951)

IMMUNIZATIONS**Required Immunizations**

The Superintendent or designee shall not unconditionally admit any student to a district elementary or secondary school, preschool, or child care and development program for the first time nor, after July 1, 2016, admit or advance any student to grade 7 unless the student has been fully immunized. The student shall present documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases: (Health and Safety Code [120335](#); 17 CCR [6020](#))

1. Measles, mumps, and rubella (MMR)
2. Diphtheria, tetanus, and pertussis (whooping cough) (DTP, DTaP, or Tdap)
3. Poliomyelitis (polio)
4. Hepatitis B
5. Varicella (chickenpox)
6. Haemophilus influenza type b (Hib meningitis)
7. Any other disease designated by the CDPH

(cf. [5141.22](#) - *Infectious Diseases*)

(cf. [5148](#) - *Child Care and Development*)

(cf. [5148.3](#) - *Preschool/Early Childhood Education*)

(cf. [6170.1](#) - *Transitional Kindergarten*)

However, full immunization against hepatitis B shall not be a condition by which the Superintendent or designee shall admit or advance any student to grade 7. (Health and Safety Code [120335](#))

A student who qualifies for an individualized education program (IEP), unless otherwise exempt, shall be fully immunized in accordance with Health and Safety Code [120335](#) and this regulation. However, the district shall continue to implement the student's IEP and shall not prohibit the student from accessing any special education and related service required by his/her IEP regardless of whether the student is fully immunized. (Health and Safety Code [120335](#))

(cf. [6159](#) - *Individualized Education Program*)

The student's immunization record shall be provided by the student's health care provider or from the student's previous school immunization record. The record must show at least the month and year for each dose, except that the day, month, and year must be shown for the

IMMUNIZATIONS (continued)

MMR doses given during the month of the first birthday and for the Tdap dose given during the month of the seventh birthday. (17 CCR [6070](#))

Exemptions

Exemption from one or more immunization requirements shall be granted under any of the following circumstances:

1. The parent/guardian files with the district a written statement by a licensed physician to the effect that the physical condition of the child is such, or medical circumstances relating to the child are such, that immunization is not considered safe. The statement shall indicate the specific nature and probable duration of the medical condition or circumstances, including, but not limited to, family medical history, for which the physician does not recommend immunization. (Health and Safety Code [120370](#); 17 CCR [6051](#))
2. The student's parent/guardian files with the district, before January 1, 2016, a letter or written affidavit stating that an immunization is contrary to his/her personal beliefs, in which case the student shall be exempted from the immunization until he/she enrolls in the next applicable grade span requiring immunization (birth to preschool, grades K-6, grades 7-12). (Health and Safety Code [120335](#))

(cf. [6141.2](#) - *Recognition of Religious Beliefs and Customs*)

When a student transfers to a different school within the district or transfers into the district from another school district in California, his/her personal beliefs exemption filed before January 1, 2016, shall remain in effect until the next applicable grade span. A student transferring from a school outside the district shall present a copy of the personal beliefs exemption upon enrollment. When a student transfers into the district from outside California and presents a personal beliefs exemption issued by another state or country prior to January 1, 2016, the Superintendent or designee may consult with legal counsel regarding the applicable immunization requirements.

3. The student is enrolled in an independent study program pursuant to Education Code [51745-51749.6](#) and does not receive classroom-based instruction.

(cf. [6158](#) - *Independent Study*)

Conditional Enrollment

The Superintendent or designee may conditionally admit a student with documentation from an authorized health care provider that: (Health and Safety Code [120340](#); 17 CCR [6000](#), [6035](#))

IMMUNIZATIONS (continued)

1. The student has not received all the immunizations required for his/her age group, but has commenced receiving doses of all required vaccines and is not due for any other doses at the time of admission.
2. The student has a temporary exemption from immunization for medical reasons pursuant to item #1 in the section "Exemptions" above.

The Superintendent or designee shall notify the student's parents/guardians of the date by which the student must complete all the remaining doses as specified in 17 CCR [6035](#).

(cf. [5145.6](#) - *Parental Notifications*)

In addition, a transfer student may be conditionally admitted for up to 30 school days while his/her immunization records are being transferred from the previous school. If such documentation is not presented within 30 days, the student shall be excluded from school until the required immunizations have been administered. (17 CCR [6070](#))

The Superintendent or designee shall review the immunization record of each student admitted conditionally every 30 days until that student has received all the required immunizations. If the student does not receive the required immunizations within the specified time limits, he/she shall be excluded from further attendance until the immunizations are received. (Health and Safety Code [120375](#); 17 CCR [6070](#))

The Superintendent or designee shall immediately enroll homeless students, foster youth, and students of military families even if their immunization records are missing or unavailable at the time of enrollment. School or district staff shall work with the student's prior school to obtain the student's immunization records or shall ensure that he/she is properly immunized. (Education Code [48853.5](#), [49701](#); Health and Safety Code [120341](#); 42 USC [11432](#))

(cf. [5112.2](#) - *Exclusions from Attendance*)

(cf. [6183](#) - *Home and Hospital Instruction*)

Before an already admitted student is excluded from school attendance because of lack of immunization, the Superintendent or designee shall notify the parent/guardian that he/she has 10 school days to supply evidence of proper immunization or an appropriate exemption. This

IMMUNIZATIONS (continued)

notice shall refer the parent/guardian to the student's usual source of medical care or, if the student has no usual source of medical care, then to the county health department or school immunization program, if any. (Education Code [48216](#); 17 CCR [6040](#))

(cf. [5141.6](#) - *School Health Services*)

The Superintendent or designee shall exclude from further attendance any already admitted student who fails to obtain the required immunization within 10 school days following the parent/guardian's receipt of the notice specified above. The student shall remain excluded from school until he/she provides written evidence that he/she has received a dose of each required vaccine due at that time. The student shall also be reported to the attendance supervisor or principal. (17 CCR [6055](#))

Exclusion Due to Exposure to Disease

If the district has good cause to believe that a student has been exposed to a disease listed in the section "Required Immunizations" above and his/her documentation of immunization does not show proof of immunization against that disease, that student may be temporarily excluded from the school until the local health officer informs the district in writing that he/she is satisfied that the student is no longer at risk of developing or transmitting the disease. (Health and Safety Code [120370](#))

HEALTH SCREENING FOR SCHOOL ENTRY

Cautionary Notice: As added and amended by SBX3 4 (Ch. 12, Third Extraordinary Session, Statutes of 2009), ABX4 2 (Ch. 2, Fourth Extraordinary Session, Statutes of 2009), and SB 70 (Ch. 7, Statutes of 2011), Education Code 42605 grants districts flexibility in "Tier 3" categorical programs. The Biggs Unified School District has accepted this flexibility and thus is deemed in compliance with the statutory or regulatory program and funding requirements for these programs for the 2008-09 through 2014-15 fiscal years. As a result, the district may temporarily suspend certain provisions of the following policy or regulation that reflect these requirements. For further information, please contact the Superintendent or designee.

Comprehensive Health Screening for Grades K-1

The parent/guardian of a student in kindergarten or first grade shall submit to the Superintendent or designee a certification form developed by the California Department of Health Care Services (DHCS) and signed by the student's health examiner certifying that the student has completed a comprehensive health screening within 18 months prior to entry into first grade or within 90 days thereafter. (Health and Safety Code 124040, 124085)

(cf. 5111 - Admission)
(cf. 5141.3 - Health Examinations)

The Superintendent or designee shall notify parents/guardians of all kindergarten students of the requirement to obtain a health screening and of the availability of the Child Health and Disability Prevention (CHDP) program established pursuant to Health and Safety Code 124025-124110 to assist eligible low-income families in obtaining the health screening. (Health and Safety Code 124100)

(cf. 5145.6 - Parental Notifications)

The notice and certification form shall be included with the notification of immunization requirements provided to parents/guardians prior to their child's enrollment in kindergarten and shall encourage completion of the health screening simultaneously with immunizations. The notice shall also be provided to the parent/guardian of any student who is enrolling in first grade without having attended kindergarten in the district.

(cf. 5141.31 - Immunizations)

In lieu of the certification, the parent/guardian may submit a waiver on a form developed by DHCS indicating that he/she does not want or is unable to obtain a health screening. If the waiver indicates that the parent/guardian was unable to obtain the services, the reasons should be included in the waiver. (Health and Safety Code 124085)

The waiver form shall be provided to a parent/guardian upon request.

The completed certification form or the waiver shall be maintained in the student's health file or cumulative record. (5 CCR 432)

(cf. 5125 - Student Records)

HEALTH SCREENING FOR SCHOOL ENTRY (continued)

During the first 90 days of the school year, the Superintendent or designee may contact any parent/guardian of a first-grade student who has not provided either the certification form or the waiver to ensure that the parent/guardian understands the health screening requirement and, if appropriate, his/her possible eligibility for the CHDP program.

The Superintendent or designee shall exclude from school, for not more than five school days, any first-grade student who does not present evidence of a health screening or a waiver on or before the 90th day after entering first grade. The exclusion shall begin on the 91st day after the student's entrance into the first grade, or if school is not in session, then on the next succeeding school day. (Health and Safety Code 124105)

The Superintendent or designee may exempt a student from exclusion when his/her parents/guardians have been contacted at least twice between the first day and the 90th day after the student's enrollment in first grade and the parents/guardians refuse to provide either a certification form or a waiver. (Health and Safety Code 124105)

(cf. 5112.2 - Exclusions from Attendance)

Oral Health Assessment for Grades K-1

No later than May 31 of the relevant school year, the parent/guardian of a kindergarten student, or first-grade student who was not previously enrolled in kindergarten in a public school, shall certify that the student has received an oral health assessment. The oral health assessment shall have been performed by a licensed dentist or other authorized dental health professional no earlier than 12 months prior to the date of the student's initial enrollment. The parent/guardian shall submit to the Superintendent or designee a California Department of Education standardized form which has been completed and signed by the dental health professional. (Education Code 49452.8)

The Superintendent or designee shall notify parents/guardians of the oral health assessment requirement. The notification shall, at a minimum, consist of a letter that includes all of the following: (Education Code 49452.8)

1. An explanation of the administrative requirements of the law
2. Information on the importance of primary teeth
3. Information on the importance of oral health to overall health and to learning
4. A toll-free telephone number to request an application for Healthy Families, Medi-Cal, or other government-subsidized health insurance programs
5. Contact information for county public health departments

HEALTH SCREENING FOR SCHOOL ENTRY (continued)

6. A statement of privacy applicable under state and federal laws and regulations

The notification and certification form shall be provided to parents/guardians when they register their child for school.

The student may be excused from complying with the oral health assessment if his/her parent/guardian indicates on the standardized form that it could not be completed for any of the following reasons: (Education Code 49452.8)

1. Completion of an assessment poses an undue financial burden on the parent/guardian.
2. The parent/guardian lacks access to a licensed dentist or other dental health professional.
3. The parent/guardian does not consent to an assessment.

Students who are not assessed, or for whom the parents/guardians fail to return the standardized form, shall not be excluded from school attendance.

By December 31 of each year, the Superintendent or designee shall report data on oral health assessments to the county office of education in accordance with Education Code 49452.8.

The report shall also be provided to the Board of Trustees. The identity of any student shall not be included in the report.

SUICIDE PREVENTION

The Board of Trustees recognizes that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. To attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

In developing measures and strategies for use by the district, the Superintendent or designee may consult with school health professionals, school counselors, school psychologists, school social workers, administrators, other staff, parents/guardians, students, local health agencies, mental health professionals, and community organizations.

2. Develop coping and resiliency skills and self-esteem
3. Learn to listen, be honest, share feelings, and get help when communicating with friends who show signs of suicidal intent
4. Identify trusted adults, school resources, and/or community crisis intervention resources where youth can get help and recognize that there is no stigma associated with seeking services for mental health, substance abuse, and/or suicide prevention

Intervention

Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

Every statement regarding suicidal intent shall be taken seriously. Whenever a staff member suspects or has knowledge of a student's suicidal intentions based on the student's verbalizations or act of self-harm, he/she shall promptly notify the principal or school counselor.

SUICIDE PREVENTION (continued)

Although any personal information that a student discloses to a school counselor shall generally not be revealed, released, referenced, or discussed with third parties, the counselor may report to the principal or student's parents/guardians when he/she has reasonable cause to believe that disclosure is necessary to avert a clear and present danger to the health, safety, or welfare of the student. In addition, the counselor may disclose information of a personal nature to psychotherapists, other health care providers, or the school nurse for the sole purpose of referring the student for treatment. (Education Code 49602)

(cf. 5141 - Health Care and Emergencies)

A school employee shall act only within the authorization and scope of his/her credential or license. An employee is not authorized to diagnose or treat mental illness unless he/she is specifically licensed and employed to do so. (Education Code 215)

(cf. 5138 - Conflict Resolution/Peer Mediation)

When a suicide attempt or threat is reported, the principal or designee shall ensure student safety by taking the following actions:

1. Immediately securing medical treatment and/or mental health services as necessary
2. Notifying law enforcement and/or other emergency assistance if a suicidal act is being actively threatened
3. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene

(cf. 5141.4 - Child Abuse Prevention and Reporting)

For any student returning to school after a mental health crisis, the principal or designee and/or school counselor may meet with the parents/guardians and, if appropriate, with the student to discuss re-entry and appropriate next steps to ensure the student's readiness for return to school.

Postvention

In the event that a student dies by suicide, the Superintendent or designee shall communicate with the student's parents/guardians to offer condolences, assistance, and resources. In accordance with the laws governing confidentiality of student record information, the Superintendent or designee shall consult with the parents/guardians regarding facts that may be divulged to other students, parents/guardians, and staff.

SCHOOL HEALTH SERVICES

BOARD RESOLUTION ON STUDENT HEALTH AND LEARNING

WHEREAS, the Board of Trustees of the Biggs Unified School District recognizes that good health is a prerequisite to optimal learning and that absenteeism among students is clearly associated with school failure; and

WHEREAS, health is defined in a broad sense as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity; and

WHEREAS, health services are an important element of a comprehensive approach to promoting health and preventing disease and disability in children and youth; and

WHEREAS, access to regular medical care is improved through health insurance, inasmuch as children without health insurance are less likely to have a family doctor, receive timely preventive care, and receive medical treatment; and

WHEREAS, nearly one in five of California's children has no health care coverage, and nearly one in five children without health care coverage do not receive necessary medical treatment for a chronic illness that was serious enough to keep the child from functioning in school; and

WHEREAS, families have a variety of options for health care coverage, including but not limited to California's low-cost Healthy Families program, no-cost Medi-Cal for Children program and local county health initiatives such as Healthy Kids, which provide comprehensive health, dental and vision care coverage to low-income, uninsured children under 19 years of age who represent the state's most vulnerable population; and

WHEREAS, after one year of coverage in the Healthy Families program, California children in the poorest health significantly improved their health, missed less school and improved their school performance; and

WHEREAS, schools can help students achieve academic success by participating in efforts that promote good health and have already demonstrated their commitment to students' health through the institution of such programs as Healthy Start and after-school programs, early care and education programs, school-based/school-linked health services, child nutrition services, school readiness, counseling services, and immunization programs; and

WHEREAS, children's access to health care services requires collaboration with local agencies and community-based organizations so that, through the shared responsibility and collective action of schools, local agencies and/or community-based organizations, we can ensure positive outcomes for our children and youth;

SCHOOL HEALTH SERVICES (continued)

NOW THEREFORE BE IT RESOLVED that the Board of the _____ School District will work to improve children's health, thereby improving their academic performance, by helping to ensure that all children have health insurance coverage. To this end, the district will participate in outreach and enrollment efforts related to California's low-cost Healthy Families Program, no-cost Medi-Cal for Children, and other affordable health programs including local county health initiatives such as Healthy Kids. This will help assure optimal learning for every child by addressing children's health problems and maximizing school attendance.

DISCIPLINE

The Board of Trustees is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and to preparing students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

(cf. 5113.1 - Chronic Absence and Truancy)
(cf. 5131 - Conduct)
(cf. 5131.1 - Bus Conduct)
(cf. 5131.2 - Bullying)

(cf. 5145.9 - Hate-Motivated Behavior)
(cf. 6020 - Parent Involvement)

The Superintendent or designee shall develop effective, age-appropriate strategies for maintaining a positive school climate and correcting student misbehavior at district schools. The strategies shall focus on providing students with needed supports; communicating clear, appropriate, and consistent expectations and consequences for student conduct; and ensuring equity and continuous improvement in the implementation of district discipline policies and practices.

(cf. 5138 - Conflict Resolution/Peer Mediation)
(cf. 6164.2 - Guidance/Counseling Services)

In addition, the Superintendent or designee's strategies for correcting student misconduct shall reflect the Board's preference for the use of positive interventions and alternative disciplinary measures over exclusionary discipline measures.

Disciplinary measures that may result in loss of instructional time or cause students to be disengaged from school, such as detention, suspension, and expulsion, shall be imposed only when required or permitted by law or when other means of correction have been documented to have failed. (Education Code 48900.5)

(cf. 5020 - Parent Rights and Responsibilities)

(cf. 3551 - Food Service Operations/Cafeteria Fund)
(cf. 3553 - Free and Reduced Price Meals)

The Superintendent or designee shall create a model discipline matrix that lists violations and the consequences for each as allowed by law.

The administrative staff at each school may develop disciplinary rules to meet the school's particular needs consistent with law, Board policy, and district regulations. The Board, at an open meeting, shall review the approved school discipline rules for consistency with Board policy and state law. Site-level disciplinary rules shall be included in the district's comprehensive safety plan. (Education Code 32282, 35291.5)

(cf. 0450 - Comprehensive Safety Plan)
(cf. 9320 - Meetings and Notices)

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the student's health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently, and in accordance with the district's nondiscrimination policies.

(cf. 0410 - Nondiscrimination in District Programs and Activities)
