RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS

The Board of Trustees recognizes that students' education would be incomplete without an understanding of the role of religion in society. As appropriate for a particular course, teachers may objectively discuss the influences of various religions, using religious works and symbols to illustrate their relationship with culture, literature or the arts. The Board expects that such instruction will identify principles common to all religions and foster respect for the diversity of religions and customs in the world.

(cf. 6143 - Courses of Study)

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is clearly forbidden in the public schools. Instruction about religion shall not promote or denigrate the beliefs or customs of any particular religion or sect, nor should a preference be shown for one religious viewpoint over another. Staff members shall be highly sensitive to their obligation not to interfere with the religious development of any student in whatever tradition the student embraces.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 1330 - Use of School Facilities)

(cf. 1325 - Advertising and Promotion)

(cf. 5113 - Absences and Excuses)

(cf. 6145.5 - Student Organizations and Equal Access)

Staff shall not endorse, encourage or solicit religious or anti-religious expression or activities among students during class time. As part of their official duties, staff shall not lead students in prayer or other religious activities. However, staff shall not prohibit or discourage any student from praying or otherwise expressing his/her religious belief as long as this does not disrupt the classroom.

(cf. 5127 - Graduation Ceremony and Activities)

Students may express their beliefs about religion in their homework, artwork and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards.

(cf. 5121 - Grades/Evaluation of Student Achievement)

(cf. 5145.2 - Freedom of Speech/Expression)

(cf. 6144 - Controversial Issues)

(cf. 6154 - Homework/Make-up Work)

While teaching about religious holidays is a permissible part of the educational program, celebrating religious holidays is not allowed in the public schools. School-sponsored programs shall not be, nor have the effect of being, religiously oriented or a religious celebration. School and classroom decorations may express seasonal themes that are not religious in nature.

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS (continued)

Music, art, literature or drama programs having religious themes are permitted as part of the curriculum for school-sponsored activities and programs if presented in an objective manner and as a traditional part of the cultural and religious heritage. The use of religious symbols that are part of a religious holiday is permitted as a teaching aid or resource provided that such symbols are displayed as an example of cultural and religious heritage of the holiday and are temporary in nature.

PHYSICAL EDUCATION AND ACTIVITY**Definitions**

Physical education is a sequential educational program that teaches students to understand and participate in regular physical activity for developing and maintaining physical fitness throughout their lifetime, understand and improve their motor skills, enjoy using their skills and knowledge to establish a healthy lifestyle, and understand how their bodies work.

Physical activity is bodily movement that is produced by the contraction of skeletal muscle and that substantially increases energy expenditure, including exercise, sport, dance, and other movement forms.

Moderate physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, walking briskly, dancing, swimming, or bicycling on level terrain. A person should feel some exertion but should be able to carry on a conversation comfortably during the activity.

Vigorous physical activity is any activity which generally requires sustained, rhythmic movements and refers to a level of effort a healthy individual might expend while, for example, jogging, participating in high-impact aerobic dancing, swimming continuous laps, or bicycling uphill. Vigorous physical activity may be intense enough to result in a significant increase in heart and respiration rate.

Instructional Time

Instruction in physical education shall be provided for at least the following minimum period of time: (Education Code [51210](#), [51222](#), [51223](#))

1. For students in grades 1-6, 200 minutes each 10 school days, exclusive of recesses and the lunch period
2. For students in grades 7-8 attending an elementary school, 200 minutes each 10 school days, exclusive of recesses and the lunch period
3. For students in grades 7-8 attending a middle school or junior high school, 400 minutes each 10 school days
4. For students in grades 9-12, 400 minutes each 10 school days

If the instructional minute requirement cannot be met during any 10-day period due to inclement weather, a school assembly, field trip, student assessment, or other circumstance, the school shall make up those minutes on another day in order to satisfy the instructional minute requirement.

PHYSICAL EDUCATION AND ACTIVITY

The Superintendent or designee shall determine a method to document compliance with the required number of instructional minutes. Such documentation may include, but not be limited to, a master schedule, teacher roster, or log for staff or students to record the number of physical education minutes completed.

Any complaint alleging noncompliance with the instructional minute requirement for elementary schools may be filed in accordance with the district's procedures in AR 1312.3 - Uniform Complaint Procedures. A complainant not satisfied with the district's decision may appeal the decision to the California Department of Education (CDE). If the district or the CDE finds merit in a complaint, the district shall provide a remedy to all affected students and parents/guardians. (Education Code [51210](#), [51223](#); 5 CCR [4600-4687](#))

(cf. [1312.3](#) - *Uniform Complaint Procedures*)

Monitoring Moderate to Vigorous Physical Activity

To monitor whether students are engaged in moderate to vigorous physical activity for at least 50 percent of physical education class or session time, the Superintendent or designee may:

1. Develop methods to estimate the amount of time students spend in moderate to vigorous physical activity or the number of students who are inactive during physical education classes
2. Provide physical education teachers with staff development, self-monitoring tools, stopwatches, and/or heart rate monitors to assist them in planning and assessing the level of activity in their classes

(cf. [4115](#) - *Evaluation/Supervision*)

Physical Fitness Testing

During the annual assessment window between the months of February through May, students in grades 5, 7, and 9 shall be administered the physical fitness test designated by the State Board of Education (FITNESSGRAM). (Education Code [60800](#); 5 CCR [1041](#))

(cf. [6162.5](#) - *Student Assessment*)

The Superintendent or designee may provide a make-up date for students who are unable to take the test based on absence or temporary physical restriction or limitations, such as students recovering from illness or injury. (5 CCR [1043](#))

PHYSICAL EDUCATION AND ACTIVITY

On or before November 1 of each school year, the Superintendent may designate an employee to serve as the district's physical fitness test coordinator and so notify the test contractor. The test coordinator shall serve as the liaison between the district and California Department of Education for all matters related to the physical fitness test. His/her duties shall be those specified in 5 CCR [1043.4](#), including, but not limited to, overseeing the administration of the test and the collection and return of all test data to the test contractor. (5 CCR [1043.4](#))

Students shall be provided with their individual results after completing the FITNESSGRAM. The test results may be provided in writing or orally as the student completes the testing and shall be included in his/her cumulative record. (Education Code [60800](#); 5 CCR [1043.10](#), [1044](#))

(cf. [5125](#) - *Student Records*)

Each student's test results shall also be provided to his/her parents/guardians.

The Superintendent or designee shall report the aggregate results of the FITNESSGRAM in the annual school accountability report card required by Education Code [33126](#) and [35256](#). (Education Code [60800](#))

(cf. [0510](#) - *School Accountability Report Card*)

Testing Variations

All students may be administered the FITNESSGRAM with the following test variations: (5 CCR [1047](#))

1. Extra time within a testing day
2. Test directions that are simplified or clarified

All students may have the following test variations if they are regularly used in the classroom: (5 CCR [1047](#))

1. Audio amplification equipment
2. Separate testing for individual students provided that they are directly supervised by the test examiner
3. Manually Coded English or American Sign Language to present directions for test administration

PHYSICAL EDUCATION AND ACTIVITY

Students with a physical disability and students who are physically unable to take all of the test shall undergo as much of the test as their physical condition will permit. (Education Code [60800](#); 5 CCR [1047](#))

Students with disabilities may be provided the following accommodations if specified in their individualized education program (IEP) or Section 504 plan: (5 CCR [1047](#))

1. Administration of the test at the most beneficial time of day to the student after consultation with the test contractor

MATHEMATICS INSTRUCTION

The Board of Trustees desires to offer a rigorous mathematics program that progressively develops the knowledge and skills students will need to succeed in college and career. The district's mathematics program shall be designed to teach mathematical concepts in the context of real-world situations and to help students gain a strong conceptual understanding, a high degree of procedural skill and fluency, and ability to apply mathematics to solve problems.

(cf. 6143 - Courses of Study)

(cf. 6146.1 - High School Graduation Requirements)

For each grade level, the Board shall adopt academic standards for mathematics that meet or exceed the Common Core State Standards. The Superintendent or designee shall develop or select curricula that are aligned with these standards and the state curriculum framework.

(cf. 6011 - Academic Standards)

(cf. 6141 - Curriculum Development and Evaluation)

The district's mathematics program shall address the following standards for mathematical practices which are the basis for mathematics instruction and learning:

1. Overarching habits of mind of a productive mathematical thinker: Making sense of problems and persevering in solving them; attending to precision
2. Reasoning and explaining: Reasoning abstractly and quantitatively; constructing viable arguments and critiquing the reasoning of others
3. Modeling and using tools: Modeling with mathematics; using appropriate tools strategically
4. Seeing structure and generalizing: Looking for and making use of structure; looking for and expressing regularity in repeated reasoning

In addition, the program shall be aligned with grade-level standards for mathematics content.

For grades K-8, content shall address, at appropriate grade levels, counting and cardinality, operations and algebraic thinking, number and operations in base ten, fractions, measurement and data, geometry, ratios and proportional relationships, functions, expression and equations, the number system, and statistics and probability. Students shall learn the concepts and skills that prepare them for the rigor of higher mathematics.

For higher mathematics, the district shall offer a pathway of courses through which students shall be taught concepts that address number and quantity, algebra, functions, modeling, geometry, and statistics and probability.

MATHEMATICS INSTRUCTION (continued)

The Superintendent or designee shall develop protocols to ensure that students are appropriately placed in mathematics courses and are not unnecessarily required to repeat a course that they have successfully completed in an earlier grade level.

(cf. 6152.1 – Placement in Mathematics Courses)

The Superintendent or designee shall ensure that certificated staff have opportunities to participate in professional development activities designed to increase their knowledge and skills in effective mathematics teaching practices.

(cf. 4131 - Staff Development)

(cf. 4331 - Staff Development)

The Superintendent or designee shall ensure that students have access to sufficient instructional materials, including manipulatives and technology, to support a balanced, standards-aligned mathematics program.
